s/t: Hitler's Army & the Battle of the Bulge Before dawn on December 16, 1944, German forces rolled through the frozen Ardennes in their last major offensive in the west, thus starting the Battle of the Bulge, which would become the U.

S. Army's bloodiest engagement of World War II. Gatching the Allies by surprise, the Germans made early gains, demolished the inexperienced U.S. 106th Infantry Division, and fought hard, but American counterattacks-and tenacious resistance in towns like Bastogne-combined with mounting German casualties and fuel shortages to force the German Army into a retreat from which it never recovered. About the Author: Samuel W. Mitcham, Jr., is the author of more than twenty books on World War II
