Eighteen-year-old Beth Leonard is a safety girl. She follows the rules and obeys the law. But playing it safe won't protect her from the darkness of her childhood. Although Beth craves order and stability, the darkness has its own evil agenda. Beth finally acknowledges the dangerous force which follows one step behind her. Determined to protect her loved ones, she digs into her past and springs into action. Someone, or something, doesn't want Beth snooping around. And now that Beth's safety rules have been discarded, anything can happen.
