Tracey Reese is just back from her summer vacations in Alaska, where she spent the time with her father, fishing and relaxing. She returns home, to find that she now has to Captain the cheerleading team (which she isn't interested in doing) and has to deal with her mother's soon-to-be new husband. Not like life is about to give Tracey a break; to top off all of this there is also the Aron Clarkson issue to deal with. Don't get Tracey wrong, she absolutely despises him. He is the poster-child for everything she stands against - he's the Captain of the football team, a womanizer and every girl's living fantasy.

So the fact that Aron is now going to be her step brother is a bad thing right? No, it's a good thing? Exactly, that is how confused Tracey is. Get 100,000+ words of hot New Adult romance adventures in this exciting new collection
