When Eve gets lost and finds herself hungry and lost in Adam's garden, little does she realise that his punishment for trespassing is exactly what she's been waiting for. When he invites her to live with him, she's sure that submitting to him will be a whole lot of fun.

Tempting him seems fun, too, but it quickly becomes clear that Adam has very different plans, and they're playing for much higher stakes, where she has no control. When Eve is no longer sure what she wants, can Adam yield to her temptation and show her where the balance of power really lies? This novella is Book 1 in the Eden Collection, and also contains an extract to one of Ina Morata's forthcoming works: Can You See Me? Erotic Tales of Voyeurism.
