One woman versus four brothers. We want her for her body. Now she's gotta decide which of us to call Daddy. Megan. Pretty little vixen in the black silk Dolce & Gabbana.

Tries to act the good girl till we slip it off her. Then tempts and teases us in her red La Perla. She was sent to spy on us. Gather dirt and destroy us. What she didn't know was she'd fall in love. But it's not just her.

The four of us are now her world. Protect her with no doubt. Take her at night. Watch as her eyes close while she screams out. As she takes us in with those hips. While our teeth sink into her lips. We'll save her from the scumbag who sent her to destroy us.

When he comes looking for her, we'll be waiting. Heaven help him if he tries to hurt her. We'll take down anyone he brings. Afterwards, its just us.

Always and forever. Happily ever after for the five of us. And in nine months, make it six.
