A Novelette. Enter the immersive storytelling of Robert Crown for the imaginative story of Peri Halliwell, taking a reader from the city of Toronto to the vastness and vivid colours of outer space. Immortal and twenty-three years old, Peri Halliwell suffers a supernatural fever on New Year's Eve. In the first days of the New Year, a series of events unfolds calling into question the notion of her unique existence when she faces destiny, desire, and purpose, discovering the meaning of her feverish daydreams, and becoming entangled in a preordained romance with the fate of the universe at stake.
