Bay is the daughter of Jed Strictland the well known federal judge and vying governor for their town. He is vile to his daughter behind closed doors and has kept her under lock and key ever since her mother's disappearance.

A supposed abduction and possible murder was what everyone thought but Bay had a feeling her father was the one who took away her mother. Coming close to her 18th birthday Bay wants nothing more than to escape his clutches before she winds up dead from his constant abuse. Before she has a chance to run she learns of the plans her father has set in place for her. She has to run before it's too late. When all goes wrong she turns to the only person she can think of...Wren Blackwell. When her life gets complicated and she is swept into the Renegades MC she realizes nothing is what it seems. Her mother's past is entangled with the Renegades but are they her saviors or did she jump head first into past vengeance that will leave her debating who she can trust? Wren and Knox become her family but can they be trusted when truth comes to light... This is a standalone novel but is part of a series for different members of the Renegades. For mature readers only do to language and sexual content.
