Doctor Who: Short Trips Monthly is a series of new short stories read by an original cast member. Release #4 is a Fourth Doctor and Leela story. Responding to a salvage team's distress call, the Doctor and Leela arrive on a crippled space ship. Its owners, the Dihmokk, are a secretive race of space mariners whose navigation skills make them the envy of the galaxy. The salvage team are long dead, but their last log entries speak of a spectre stalking the ship's halls, picking them off one by one. When the pair become separated, Leela must fight for survival whilst the Doctor seeks to understand the nature of the ghost...
